Welcome to our services

An LPA is imperative to protect someone's property and family in case they suffer an accident, stroke, brain injury or disease which leaves them unable to make their own decisions.

Whether you want to make an LPA or just simply want to learn more about what a LPA can be used for and how to make one, we have a wide range of LPA making and consultation services, so you can choose the most appropriate option for your needs.

LPA Services: Advice

Advice Consultation

Just want to know more so you can do it yourself?

Making an LPA is relatively straightforward and can usually be done so without the help of a lawyer. You can make an LPA by yourself online, via the Government website.

However, due to the importance of the document, there are strict requirements in terms of writing, signing and registering it.

We offer a personalised, 1-hour, online 'Advice Consultation' service to help you gain more understanding on how to make your own LPA above and beyond what any article or free guide can offer you.

We then send you a guide, outlining all the advice and guidance explained in the meeting.

If you want one, it is **just £160**. However, if you wish to have both, then you can have the second LPA at **a discount**, so two LPAs are **just £265**.

Couple LPAs

It is hugely common for married couples or civil partners to want to protect their family and property together.

This is especially the case where they jointly own property.

You may want to give each other the power to make decisions on each other's behalf, so you can look after each other more easily.

We value your family.

You can have an LPA each for a total of **£265** or you can both have two LPAs each for **£475**.

Equally, if one wants one LPA and the other wants both, it is **£370**.

We offer these discounts to make it easier to look after your family.

Proving Mental Capacity

As the Donor (the person making the LPA), you must be over 18 years of age and have the mental capacity to make an LPA.

Otherwise, the LPA will not be valid or effective.

All our LPA making services are designed to show you had the mental capacity at the time of making your LPA.

However, there can sometimes be circumstances which give rise to doubts over whether someone has the requisite level of capacity.

We work closely with experienced teams of specialist capacity assessors and medical professionals who can meet with you and provide a report on your capacity.

Please get in touch with us to discuss this, if this is a concern for you, and we will be more than happy to help.
